Search Engine	• Elasticsearch 6.1 • Solr 7.x	

For more information on configurations and limitations with Application Servers and Databases that are compatible with Liferay DXP, please refer to the Liferay User Guide.

* Desktop Browser support exclusions:

1. Versions of browsers that were released after a major Liferay version release have not been tested and support for these newer browser releases will be provided as best-effort only and may be included in subsequent service releases at Liferay's discretion.

2. Versions of browsers that were supported with an initial release of a Liferay version that have reached the end of their product lifecycle are no longer tested in subsequent service releases and support for those older browser releases will be provided as best-effort only.

3. Internet Explorer Compatibility modes for all relevant versions are not supported.

4. Customers may experience a memory leak when using the latest version of IE 11 and Edge. Please see the Customer Knowledge Base for more information.

** Mobile Browser support exclusions:

1. Liferay will support access to information (e.g. reading content and navigation through pages), navigation menus, and basic responsiveness of modules for the latest versions of mobile browsers only. For more information on Liferay's mobile support policy, please refer to the Customer Portal.

***Amazon EC2 and RDS are only supported with environments on the Liferay DXP 7.1 Compatibility Matrix

Liferay DXP does not restrict the use of VM/Container strategy as long as the Application Server/Database/JDK/Operating System are supported within our compatibility matrix. Customers will be responsible for configuring the VM/Container appropriately.
